THE HEART OF VALENTINE'S DAY

A red HEART pierced by Cupid's arrow is a traditional symbol of Valentine's Day. Around the 12th Century, people were not aware that the function of the HEART was to circulate blood inside the human body. They just knew that the HEART began to beat faster when a person is upset or excited. From that they derived that the HEART was the seat of emotions and feelings. Maybe we know through scientific study that those emotions come from the brain. We also know there is a heart-brain connection. What has that got to do with food? Everything! Our HEARTS begin where our brains leave off and our brains are nothing without our HEARTS. Our HEARTS tell us it is good to be generous and kind. That circulates to the brain, and it agrees. Our brain knows that there are people in our area who don't have enough food. Our HEARTS say "Feed them." So we have, so we do, and so we shall. So far in 2012, we have collected 135 pounds of food. What this means is that we need to collect 168 pounds a month to make our goal of 2012 pounds for this year. To make our second goal of 10,000 pounds at the end of 56 months we need 208 lbs. per month. Can we do it? OF COURSE WE CAN! We are blessed with big HEARTS. We just have to keep on keeping on. How are we going to do it this month? In honor of Valentine's Day and with Ash Wednesday coming soon, we are going to give those in need a symbol of what is in our giving HEARTS. We shall give them RED STUFF! RED STUFF for Valentine's. RED STUFF for the love in our HEARTS. What kind of RED STUFF? Tomatoes, chili with or without beans, beets, red beans, kidney beans, spaghetti sauce, pizza sauce, and any can or box of food that has a RED label or RED writing on it. Even if you READ about it in a sale paper, that is good enough and counts as RED. So get on your mark, get READY, SET, GO RED HEARTS! bzf
