IN A FEVER FOR THE ZENITH

Every year there comes a day in the late summer when I step outside my door and instantly I feel a change. It is still hot and usually humid too, but I can feel, or sense, that there is an almost imperceptible difference. There is even a change in the light. I look forward to it. To me, it is the zenith of summer. The summer is still here but it has reached its apex. In musical terms I would call this phenomenon the "CREMATION CRESCENDO" because it occurs just when I think I can't stand the heat of summer any longer or I will burst into flames!

I am expecting that zenith soon. I am so hot as I write this that my brain is fried. I have not a clue what to do to encourage you to bring food to help the Food Pantry. But I am certain there is still a need and I am more certain you will respond with

your generous hearts as you have been doing all along. At last count our total was **846** pounds. Now that school has started we must try to pump it up a little. Think of things that could be given that requires no cooking. Peanut butter, jelly, crackers, canned fruit, cookies, juice and juice drinks, pop tarts, canned tuna or chicken. Your choice. By the time you receive this in September, I hope we have all heard the crescendo of summer. I know if blessed relief is in the air, we can show our appreciation by putting food on the tables of those who need us.
