

Our Mission Statement

The Children's Space at St. Luke's, formerly known as Mother's Morning Out, was established in 1991 as an outreach to families in our community.

Our goal is to provide an affordable child-care option to families where children can experience time away from home in a nurturing, safe environment.

The Christian way of life is presented in the tradition of the Episcopal church without offense to or intrusion upon other religious faiths. Above all, each child is taught that they are a child of God, as are all others.

We foster age-appropriate development through purposeful play and artistic communication, using materials and themes that draw from the cultural diversity of our students, their families, and our community. At St. Luke's we seek to be good stewards of the earth. We are working towards becoming a zero-waste facility. We use sustainable products whenever possible and participate in the church's composting program.
