

Our Program

A typical day at The Children's Space will include free choice in child-directed activities, snack, circle time, outdoor play, music/movement and lunch.

At least once weekly, children will have each of these 15-30 minute special activities with St. Luke's staff: Chapel and music time.

Your child will:

- have opportunities to play and work in small groups and alone
- sing and listen to music, stories, and poems
- be exposed to creative drama
- share games, materials, and experiences with peers
- learn to listen and follow directions
- help to keep the classroom tidy
- build self-esteem and social skills
- use various art supplies as a form of self-expression and discovery
- explore language and communication
- develop appreciation for nature through outside time and guided activities
